Preface

Introduction to Computer Science: Coding is a one-of-a-kind text that introduces you to the exciting world of computer coding. It provides a foundation in the concepts of programming using easy-to-learn, free software such as Scratch, MIT App Inventor, OpenSCAD, and HTML. You will explore, you will experiment, and you will learn. This will open the window to the possibilities that lie ahead of you in the field of computer programming.

In addition to learning programming, you will make cross-curricular connections with *Math and Coding* and *Science and Coding* features along with language arts activities at the end of each chapter. Team-based activities, *Cooperative Coding* features, encourage teamwork while creating coding projects. In addition, problem-solving skills are developed through *Coding Conundrum* features, which present you with code that must be analyzed and fixed.

About the Authors

Kathleen M. Austin was a senior lecturer in the School of Information Arts and Technologies at the University of Baltimore. She has participated in the development of many educational multimedia projects. She has authored, co-authored, or contributed to several textbooks, including *Consumer Mathematics* and *Mathematics of the World of Work*. She holds a Master of Science degree in Computer Science from Johns Hopkins University and a Doctor of Communications Design from the University of Baltimore, as well as IC3 certification.

Lorraine N. Bergkvist was an Adjunct Professor at the University of Baltimore providing instruction in Visual Basic programming, database implementation, and web-page creation. She is also the owner of the Kingsville Résumé Center, which provides professional résumé-writing services as well as consulting and editing in the information technology field. She developed the curriculum and taught the Introduction to Technology and Programming courses at the University of Baltimore and the College of Notre Dame of Maryland. She holds a Bachelor of Science degree from Trinity University, a Master of Education degree from Towson University, and IC3 certification. She has received several scholarships and grants in the technology field.

Guided Tour

The instructional design includes student-focused learning tools to help students succeed. This visual guide highlights the features designed for the textbook.

Essential Questions at the beginning of each chapter will engage you to uncover the important points presented in the content.

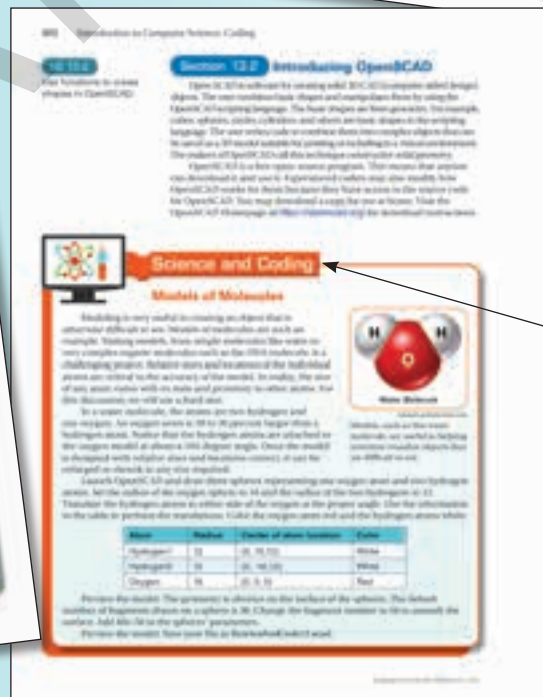

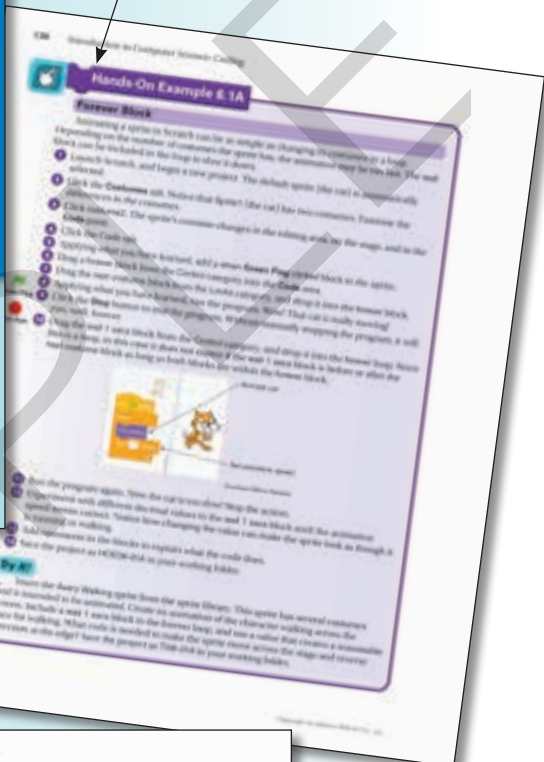

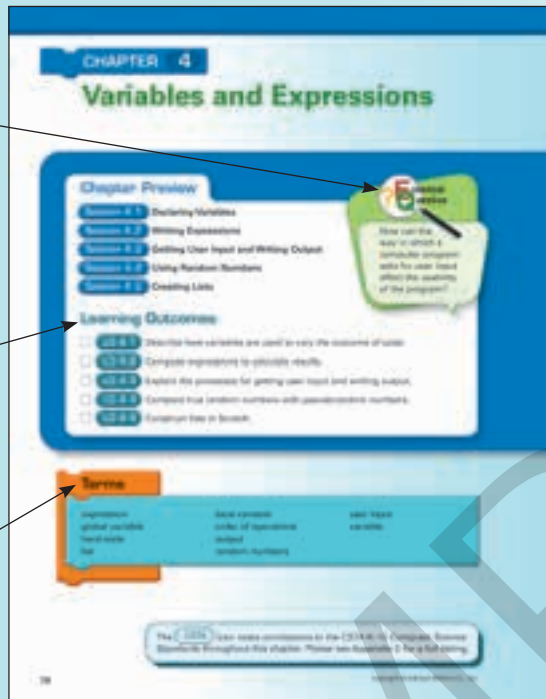

Learning Outcomes clearly identify the knowledge and skills to be obtained when the chapter is completed.

Terms list the key vocabulary terms to be learned in the chapter.

Math and Coding features allow you to apply your math skills to coding.

Try It! activities follow the Hands-On Examples so you can apply the coding on your own.

Hands-On Example activities walk you through coding examples so you learn by doing.

Reviewers

The author and publisher wish to thank the following industry and teaching professionals for their valuable input into the development of *Introduction to Computer Science: Coding*.

Michael Abramczyk

Technology Integration Specialist
Ridgeland Public School District 122
Oak Lawn, IL

Daniel Albers

Teacher, Technology
King Science and Technology
Magnet Middle School
Omaha, NE

Karen Alley

Keyboarding & Computer Tech
Teacher
White Station Middle School,
Shelby County Schools
Memphis, TN

Robert R. Becker

Network Engineer
Gary Community School Corp
Gary, IN

Jared P. Bitting, DTE

Technology & Engineering
Educator, Department Chair
Fleetwood Area Middle School
Fleetwood, PA

Leanna M. Blandford

Technology and Engineering
Educator
Marley Middle School
Glen Burnie, MD

Nancy Brandon

Business, IT, & Marketing Teacher
Colonial Forge High School
Stafford, VA

J.B. Browning

Department Chair
Brunswick Community College
Supply, NC

Travis Dalton

Lecturer
Columbia College
Columbia, SC

Susan D'Amato

Business & Computer Teacher
North End Middle School
Waterbury, CT

Dana T. Dingell

CTE Dept. Chair/Business &
Marketing Teacher
James Madison High School
Vienna, VA

Brian Drelick

STEM Supervisor
High Point Regional High School
Sussex, NJ

Barbara Dunham

Teacher
Bessemer City Middle School
Bessemer, AL

Marianne Farina

Business & Information
Technology Education
Teacher/CTE Dept. Chair
Apex Middle School
Apex, NC

Colleen Federman

Business Education Teacher
Martinez Middle School
Lutz, FL

Mary Finley

CTE Director
McDowell County Schools
Marion, NC

Jillian Forcht

Computer Education Teacher
Eastlake Middle School
Eastlake, OH

Kenneth L. Franklin

Computer Repair Instructor
J. Everett Light Career Center
Indianapolis, IN

Lori Gratch

Computer Science Teacher
Collingswood High School
Collingswood, NJ

Evonne Hackett

Teacher
Lakeview Middle School
Rossville, GA

Billy Heisler

Technology Teacher
Lake Zurich Middle School
North
Hawthorn Hills, IL

Gary Hensley

Teacher
Mt. Diablo Unified School
District
Concord, CA

Michelle Isenhower

Business Education Teacher
Chapin Intermediate School &
Chapin Middle School
Chapin, SC

Tonya Lackey

K-12 Technology/STEM Educator
Westport Central School
Westport, NY

James Lebo

Computer Applications Teacher
Southern Middle School
Glen Rock, PA

Sherry McAllister

Business/Information
Technology Teacher
Marion County High School
Buena Vista, GA

Teri Mitchell

Career and Technical Instructor
Huntsville City Schools
Huntsville, AL

Jennifer Piggott

Technology Instructor/Girls Who
Code Club Sponsor
Erie Middle School
Erie, CO

Pam Rissmann

STEM/Computer Science Teacher
Dartmouth Middle School
San Jose, CA

Chuck Routhier

Teacher
Sugg Middle School
Bradenton, FL

Moses Seenarine

Computer Teacher
Hawthorne School
Hawthorne, CA

Zada Wicker

Chair Health Sciences
Brunswick Community College
Supply, NC

Justin Yantho

Department Head of
Technological Education
St. Thomas Aquinas Catholic
Secondary School
Oakville, ON Canada

TOOLS FOR STUDENT AND INSTRUCTOR SUCCESS

Student Tools

Student Text

Introduction to Computer Science: Coding introduces students to basic computer coding concepts using software that is easy to learn and easy to use.

G-W Companion Website

- For digital users, e-flash cards and vocabulary exercises allow interaction with content to create opportunities to increase achievement.
- Digital files and Extension Exercises provide support and practice opportunities to reinforce concepts.

Online Textbook

Online student text, along with rich supplemental content, brings digital learning to the classroom.

Instructor Tools

LMS Integration

Integrate Goodheart-Willcox content within your Learning Management System for a seamless user experience for both you and your students. LMS-ready content in Common Cartridge® format facilitates single sign-on integration and gives you control of student enrollment and data. With a Common Cartridge integration, you can access the LMS features and tools you are accustomed to using and G-W course resources in one convenient location—your LMS.

G-W Common Cartridge provides a complete learning package for you and your students. The included digital resources help your students remain engaged and learn effectively:

- **Digital Textbook**
- **Data Files**
- **Extension Exercises**
- **Drill and Practice** vocabulary activities

When you incorporate G-W content into your courses via Common Cartridge, you have the flexibility to customize and structure the content to meet the educational needs of your students. You may also choose to add your own content to the course.

For instructors, the Common Cartridge includes the Online Instructor Resources. QTI® question banks are available within the Online Instructor Resources for import into your LMS. These prebuilt assessments help you measure student knowledge and track results in your LMS gradebook. Questions and tests can be customized to meet your assessment needs.

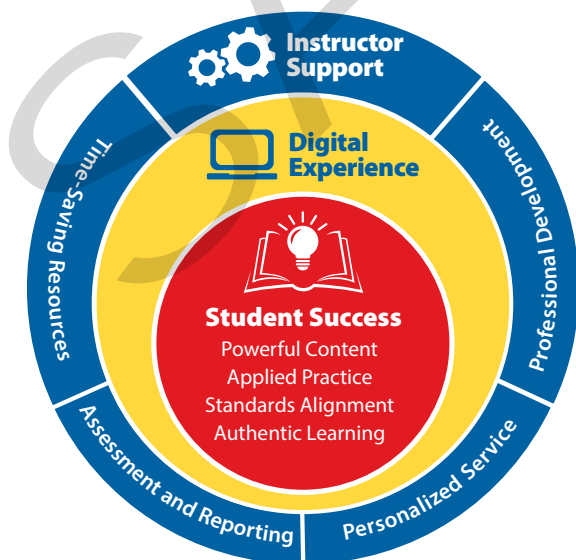

Online Instructor Resources (OIR)

- The **Instructor Resources** provide instructors with time-saving preparation tools such as answer keys, editable lesson plans, and other teaching aids.
- **Instructor's Presentations for PowerPoint®** are fully customizable, richly illustrated slides that help you teach and visually reinforce the key concepts from each chapter.
- Administer and manage assessments to meet your classroom needs using **Assessment Software with Question Banks**, which include matching, completion, and multiple choice questions to assess student knowledge of the content in each chapter.

See www.g-w.com/introduction-computer-science-coding-2024 for a list of all available resources.

Professional Development

- Expert content specialists
- Research-based pedagogy and instructional practices
- Options for virtual and in-person Professional Development

Brief Contents

CHAPTER 1	Introduction to Computer Programming.....	2
CHAPTER 2	Solving Problems.....	22
CHAPTER 3	Introduction to the Scratch Coding Environment.....	42
CHAPTER 4	Variables and Expressions	70
CHAPTER 5	Decisions	100
CHAPTER 6	Loops	126
CHAPTER 7	Custom Blocks	148
CHAPTER 8	Events	174
CHAPTER 9	Sound and Video.....	196
CHAPTER 10	Animation.....	218
CHAPTER 11	Game Design.....	250
CHAPTER 12	Apps.....	280
CHAPTER 13	Working in Three Dimensions	316
CHAPTER 14	Introduction to Coding Web Pages.....	348

Contents

CHAPTER 1	Introduction to Computer Programming.....	2
Section 1.1	Exploring Computer Science	4
Section 1.2	Examining Computers.....	6
Section 1.3	Simulating with Computers	14
Section 1.4	Writing Code.....	15
CHAPTER 2	Solving Problems	22
Section 2.1	Using the Problem-Solving Model.....	24
Section 2.2	Solving Problems.....	28
Section 2.3	Writing Algorithms	31
CHAPTER 3	Introduction to the Scratch Coding Environment ...	42
Section 3.1	Exploring the Scratch Project Editor	44
Section 3.2	Creating a Project in Scratch	54
Section 3.3	Using a Tutorial in Scratch	63
CHAPTER 4	Variables and Expressions	70
Section 4.1	Declaring Variables	72
Section 4.2	Writing Expressions	78
Section 4.3	Getting User Input and Writing Output	83
Section 4.4	Using Random Numbers	88
Section 4.5	Creating Lists	92
CHAPTER 5	Decisions	100
Section 5.1	Making Decisions in Code	102
Section 5.2	Building Boolean Expressions	106
Section 5.3	Coding Decisions	110

CHAPTER 6	Loops	126
Section 6.1	Programming Repetition	128
Section 6.2	Using Looping Techniques	137
CHAPTER 7	Custom Blocks	148
Section 7.1	Creating Custom Blocks	150
Section 7.2	Reusing Code	155
Section 7.3	Making Custom Blocks with Input	159
Section 7.4	Designing with Custom Blocks	163
CHAPTER 8	Events	174
Section 8.1	Using Events	176
Section 8.2	Broadcasting and Receiving Messages	180
Section 8.3	Managing Code	184
CHAPTER 9	Sound and Video	196
Section 9.1	Working with Sound	198
Section 9.2	Working with Video	210
CHAPTER 10	Animation	218
Section 10.1	Animating Sprites	220
Section 10.2	Editing Sprite Costumes	231
Section 10.3	Creating Sprites	236
Section 10.4	Creating Backdrops	240
CHAPTER 11	Game Design	250
Section 11.1	Introduction to Game Design	252
Section 11.2	Finalizing the Game Build	264

CHAPTER 12	Apps	280
Section 12.1	Introduction to App Development	282
Section 12.2	Using MIT App Inventor	284
Section 12.3	Exploring Components and Blocks	293
Section 12.4	Developing Apps with Animation	301
Section 12.5	Connecting Apps to External Sources	308
CHAPTER 13	Working in Three Dimensions	316
Section 13.1	Learning the Basics of Three-Dimensional Modeling	318
Section 13.2	Introducing OpenSCAD	322
Section 13.3	Exploring Careers in the 3D Field	340
CHAPTER 14	Introduction to Coding Web Pages	348
Section 14.1	Basics of HTML	350
Section 14.2	Adding Inline Elements	358
Section 14.3	Creating Internal Styles	361
Section 14.4	Linking to Pages	367
Section 14.5	Adding Interaction to a Web Page	372
Section 14.6	Securing a Web Page	377
Appendix A	ASCII Characters	386
Appendix B	Scratch Instruments and Notes	390
Appendix C	CSTA Standards	392
Glossary		397
Index		400

Hands-on Examples

Chapter 1 Introduction to Computer Programming

1.2 Look at Computer Code	12
1.4 Write a Greeting in Binary	16

Chapter 2 Solving Problems

2.1A Understand the Problem	25
2.1B Carry Out a Plan	27
2.2 Solve a Simpler Problem	30
2.3A Write an Algorithm	33
2.3B Review an Algorithm	36

Chapter 3 Introduction to the Scratch Coding Environment

3.1A Experiment with Blocks	46
3.1B Create a Basic Code	48
3.1C Add Sprites to a Project	53
3.2A Explore Sprite Costumes	56
3.2B Code Hello World Project	60
3.3 Use a Tutorial	64

Chapter 4 Variables and Expressions

4.1 Using Global and Local Variables	75
4.2 Write an Expression	81
4.3A Ask for User Input	84
4.3B Providing Good Output	87
4.4 Random Sprite Location	90
4.5 Applying Lists to the Average Project	92

Chapter 5 Decisions

5.1 Basic Comparison Statement	104
5.2 Boolean Expression Construction	108
5.3A Basic IF...THEN Construction	110
5.3B Branching Code	112
5.3C Nested IF Statements	116
5.3D Compare Input to a Calculation	119

Chapter 6 Loops

6.1A Forever Block	130
6.1B Repeat Block	133
6.1C Repeat Until Block	135
6.2A Nested Loops	138
6.2B Using a Counter	141

Chapter 7 Custom Blocks

7.1 Use Custom Blocks	154
7.2 Reusing a Custom Block	157
7.3 Data Types for Custom Blocks	161
7.4 Designing a Project with Custom Blocks	168

Chapter 8 Events

8.1 Events for Multiple Sprites	178
8.2 Broadcasts	181
8.3A Multiple Events	186
8.3B Create an Interactive Game	189

Chapter 9 Sound and Video

9.1A Code Background Music	200
9.1B Using Sound Files	207
9.2 Create a Program with Motion Control	211

Chapter 10 Animation

10.1A Changing Costumes	223
10.1B Animating a Sprite by Rotation	227
10.1C Animating a Sprite by Changing Its Size	228
10.2 Editing an Existing Costume	233
10.3 Create a Rain Shower	237
10.4 Scrolling Background	242

Chapter 11 Game Design

11.1A Coding Game Mechanics	255
11.1B Adding the Objective Mechanic	259
11.1C Coding the Character-Abilities Mechanic	261
11.2A Adding Assets	266
11.2B Developing the Game Loop	268
11.2C Balancing the Game	273

Chapter 12 Apps

12.1 Investigate Available Apps	284
12.2A Set Up MIT App Inventor	285
12.2B Coding a Hello World App	289
12.3A Exploring Components	294
12.3B Creating a Utility App	297
12.4A Animating a Ball	303
12.4B Animating a Sequence of Images	305
12.5 Display an Address on a Map	309

Chapter 13 Working in Three Dimensions

13.1 Researching 3D Software	321
13.2A Using Instructions in OpenSCAD	326
13.2B Coding a 3D Snowman	330
13.2C Coding a Mobile Phone Caddy	337
13.3 Investigating Higher Education	342

Chapter 14 Introduction to Coding Web Pages

14.1A HTML Template	354
14.1B Web Page Title	355
14.1C Headings and Paragraphs	357
14.2A Adding an Image	360
14.2B Inserting Line Breaks	361
14.3A Formatting Text with an Internal CSS	363
14.3B Drawing Horizontal Rules	365
14.3C Setting Background and Text Color	367
14.4A Linking within a Page	369
14.4B Linking to an External Source	371
14.5 Adding JavaScript to an HTML Button	375
14.6A Packet Switching in an Unplugged Game	378
14.6B Encryption in an Unplugged Exercise	379

Special Features

Math and Coding

Binary Number System	11
Algorithm for Averages	32
Slope of a Line.....	52
Distance Between Sprites.....	77
Linear Equations.....	115
Regular Polygons.....	140
Multiple Dice Rolls.....	164
Data Graphs.....	185
Relationship Between Music and Math.....	203
Animating Sprites with Math Functions.....	230
Tracking Cards in a Game	258
Two-Way Tables	302
Model an Open Container ...	335
Spherical Calculations	376

Cooperative Coding

Writing Instructions	17
Writing Algorithms	37
Writing an Interactive Tutorial..	65
Working with Random Numbers	95
Programming Nested Decisions.....	121
Programming a Simple Game.....	143
Generating Pythagorean Triples.....	169
Calculating Pressure	191
Recording Voices	213
Evaluating Life Movement ...	245
Game Development	275
App Gaming.....	311
Openwork Toy.....	343
Creating a Website.....	380

Science and Coding

Devices That Talk	8
Algorithm for Tree Age.....	35
Animal Ecosystems	62
Temperature Conversion.....	91
Elements.....	118
Water Cycle	131
Force and Gravity.....	155
Respiration and Depth.....	183
Sound and Temperature	209
Simulating an Orbiting Satellite.....	235
Gravity in Video Games	272
Litmus Test	293
Models of Molecules.....	322
Educating People with Diabetes.....	373

Coding Conundrum

Number Systems	10
Patterns.....	29
Deconstruct Code	59
Order of Operations	79
Program Flexibility.....	106
Loops with Sound	135
Custom Blocks.....	153
Event Errors	188
Audio Error.....	205
Animated Costumes.....	222
Sound Timing	253
Entry Error.....	307
Translation of Child Nodes ...	328
Web Page Not Displaying an Image	359
